

IT 4983 Capstone Project Application (Spring 2018)

Please complete this form and save as a **PDF** file and submit it to D2L. Please carefully respond to the questionnaire as this is the basis for project and team assignment.

Name:

It is strongly recommended that you take no more than **four** courses as a full time student, and **fewer** if you are also working. Depending on the project, you may have to spend more than 10 hours (maybe 20 hours) per week.

The following courses are critical for capstone projects. It is recommended to complete **ALL BEFORE** taking the capstone class. Please check the ones you have completed.

- ☒ CSE 3153 Database Systems
- ☒ IT 3203 Introduction to Web Development
- ☒ IT 3223 Software Acquisition and Project Management
- ☒ IT 3883 Advanced App Dev
- ☒ IT 4323 Networking
- ☐ currently taking IT 4423 Linux/Unix Admin
- ☐ currently taking IT 4823 Information Security

Your strength or you would like to practice in:

- ☒ Application development/programming (web, mobile, etc.)
- ☐ Database design and data processing
- ☐ System administration/configuration, including network, OS, virtualization, applications, etc.
- ☐ Security analysis and implementation
- ☐ Research, technical writing,
- ☒ Others? Or anything more specific? Was also asked by Prof Zheng to join his project.

Please attach your brief resume to this application (**together save as one single pdf file**). Thanks.

CHANDLER BOGOLIN

16 Masters Way, Newnan, GA 30265 | chandlerbogolin@gmail.com | (404) 242-8885

SUMMARY | Fourth year IT major looking to enhance my skills and experience in the work field. Very driven and motivated; always eager to learn and improve. Responsible and dependable worker, whether alone or in a team.

SKILLS & ABILITIES | ☐ **Technical:** Experience with C#, Java, HTML5, JavaScript, XML, PHP and Android Development.
☐ Foundational experience with SQL and databases.
☐ Abundant experience working with hardware.
